Presidential Message

Dear colleagues and clinic owners:

The board staff has been very busy with the renewals processed the last week of September because of the influx of last minute renewals. The renewal process started August 15th and as of the 29th of September we have approximately 350 out of 500 renewed but over 200 of those renewed since September 20th. The process of online renewal is typically not very complicated but issues with continuing education hours or state privilege (business) licenses may require additional follow up by the licensee that may not be resolved before the deadline if the licensee waits until the last week to renew. I encourage everyone to renew as soon as possible to allow time for any issues that may arise to be handled before the deadline of September 30. The state privilege (business) license renewal information is handled electronically and the board staff can obtain the information for most licensees, but currently 13 counties are not submitting their information to the state electronically and this will usually be re-

flected as part of the online renewal application and require you to follow up with a fax of the current state license to the Board office.

Two staff members have just returned from a weeklong CLEAR (Council on Licensure, Enforcement and Regulation) seminar that covered issues regarding the trend nationally regarding scope revisions, clarification etc. The Board has been looking into these issues and working on wording that is more reflective of the profession's scope as we continue to move forward. We have one of the better scopes of any state in the nation but we have issues that are not necessary reflective of the training of today's graduating Doctors of Chiropractic. The Board looks forward to working with the ASCA on this issue and will proceed with any changes that are in the public's best interest.

The Board has recently submitted a rule regarding Nutraceuticals, vitamins, minerals etc. to clear up issues that have re-

ATTENTION:

Those who procrastinate and do not renew until December 31, the Board Office will be closed as it is a state holiday. If you have a problem with your renewal it will not be complete and your license could lapse. Please complete your renewal now.

Presidential Message continued

cently been brought to the boards attention. The rule does not change the scope in any way it only addresses advances in our profession that many of our practitioners have made in their practice as it relates to nutrition. The rule change does not affect a doctors right to recommend vitamins, minerals etc. it only addresses issues regarding administration of the substances as allowed by our scope. Once the rule becomes final, doctors wishing to administer these Nutraceuticals shall provide the board with proof of training by an accredited college or program in these methods and will be allowed to use in their practice.

I would like to close in reminding all who have not renewed please do so as soon as possible to avoid additional fees and problems with your license.

THANK YOU FOR YOUR POSITIVE COMMENTS

"I would like to personally thank your staff for their assistance in the renewal of my license yesterday. They were extremely professional as well as efficient in the matter in which they assisted me..."

After handling numerous phone calls and faxes for one doctor her comment was "You don't need to babysit us."

"...THANK YOU once again for ALL your help in regards to me getting my license back. I could not have done it without your help. Your fantastic attitude and "can do" approach really helped me. ...THANK YOU for being so kind, helpful, and professional. I appreciate all you guys."

Reinstatement Process for Lapsed License

As the time to renew your license without a late fee has now passed, please be aware of the importance of renewing before December 30th. Your license can still be renewed at this time with the only penalty being a late fee. (\$50 if renewed in October, \$100 in November and \$250 in December) This is still much easier than waiting to renew until after December 30th. After this date your license is in a forfeit status and you must apply for reinstatement before you can practice. Your office must be closed until reinstatement is complete. You must first complete an application for reinstatement online. You will then be sent a letter outlining documents and fees required to be submitted to the Board Office. After *all* required documents are submitted your request will be placed on the next Board agenda and your reinstatement will be discussed and voted on at the meeting. Again, you may not practice until after approved and you receive your renewal card in the mail. If you practice during this time you will be practicing without a license and in violation of the Board Rules and Regulations.

Use of Lasers

As the use of lasers becomes increasingly more popular and beneficial, health care providers also have become more familiar with them, leading to their more frequent use. This has led to increased advertising and the "touting" of lasers as a method of treatment. Doctors of Chiropractic are included as a target group within the health care delivery system by various individuals or entities extolling the benefit of lasers.

With the above in mind, it is important for chiropractic practitioners in this State to be aware of the allowed use of lasers. Awareness not only benefits patients but can prevent adverse consequences - both from claims by patients or from Board actions.

The Board was somewhat ahead of the curve by its adoption of a Laser Rule in 2008. The applicable Rule is 190-X-5.13. You are urged to carefully review and understand this Rule if you are using or contemplating the use of lasers in your practice.

In short, the Rule allowing the use of lasers only if:

- (a) The laser being used has been approved by the FDA for therapeutic use, and,
- (b) The laser is used only within the allowable scope of chiropractic in Alabama.

The Rule admonishes that any chiropractor using a laser as allowed by the Rule is responsible for adhering to any laws applicable to lasers and knowing and following the appropriate protocol for their use.

The Board hopes this information is helpful. If you are ever in doubt about the allowable use of a laser, please ask before not after.

OUR MISSION

To regulate and license doctors of chiropractic in order to protect the people of Alabama.

OUR VISION

To ensure the people of Alabama will receive professional, ethical and quality care in utilizing chiropractic services to maximize health benefits.

This following rules were adopted and became effective July 27, 2010.

Please place a copy in your Office Master Copy of the Rules and Regulations to avoid future violations of this rule.

RULE 190-X-2.17 Non Licensed Chiropractic Practice Ownership.

Definition. For the purpose of this rule, practice shall mean an office, clinic or other place that offers or provides chiropractic services which is owned in whole or in part by a non licensed person or entity.

Permit Required.

A practice shall not offer or provide chiropractic services without all non licensed owners' first obtaining a permit or renewal permit from the Board.

An applicant for a permit shall submit to the Board an application as prescribed by the Board, along with a permit fee to be established by the Board. The application must be signed by all owner(s), if a sole proprietorship, or by an authorized representative, if a partnership, corporation, Limited Liability Company or Limited Liability Partnership.

The following information shall be included in the application and upon renewal:

The legal name of the practice and street address, telephone and facsimile numbers of the practice;

The type of entity (Sole proprietorship, partnership, corporation, Limited Liability Company, or Limited Liability Partnership);

The name, address and percentage of ownership of each person or entity;

The name and license number of each chiropractor licensed by the Board who is employed or otherwise engaged to offer or provide chiropractic services at the practice.

- (4) As a condition of the issuance of the initial non licensed permit, the applicant if an individual(s) or if an entity the person(s) who will be most directly involved in the operation of the practice shall successfully pass a jurisprudence examination to be administered by the Board.**
- (5) No permit or renewal will be issued on an incomplete submission. Applications or renewals that are submitted without all of the required documents, information and / or fees will be deemed incomplete and returned to the applicant.**
- (6) Practice permits shall not be required for licensed hospitals as defined in Sections 22-21-7, Code of Alabama 1975, or public health clinics registered with an appropriate government agency.**
- (7) At least 30 days prior to the expiration of a practice permit, the Board shall send a renewal reminder to owner(s) of a practice.**
- (8) Late Fees. A practice which does not renew the permit by September 30 shall pay late fees in the same amount as outlined in Board Rule 190-X-2.11(7).**
- (9) Continuing Education Required. As a condition for renewal of a non licensed permit, the clinic owner(s) shall obtain a minimum of two (2) hours of continuing education in Board approved courses on chiropractic regulations and compliance with the Alabama Chiropractic Practice Act and Board Rules between October 1 and September 30 of each year.**

Any licensed chiropractor who offers or provides chiropractic services for or in a practice as defined in this rule without said practice having first obtained a permit or a timely renewal shall be considered in violation of the Alabama Chiropractic Practice Act. A practice permit shall be subject to the provisions of the Alabama Chiropractic Practice Act in regard to issuance and renewal of the permit or the acts or omission of any licensed chiropractor employed or otherwise engaged to offer or provide chiropractic services.

RULE 190-X-7-.02 Extern And Intern.**(1) Extern.**

(a) **Definition** - a person who has graduated from a college of chiropractic maintaining a standard of training acceptable to the Alabama State Board of Chiropractic Examiners within the six (6) months preceding the application for participation in this program, but who has not yet been licensed in any other state.

(b) **Qualifications** - have a current completed license application on file with the Board at the Executive Director's office including National Board transcript passing Parts I, II and III and all documents and fees.

Program Time Period - must take the National Board IV examination within twelve months of qualifying for this program. Inclusion in this program as an extern will be terminated three months after the second Part IV test date of the program period.

Each applicant for the extern program shall complete an application to be provided by the Board. Such application shall include a provision that in executing the application the applicant agrees to comply with the provision of the Alabama Chiropractic Act and all rules adopted by the Board.

(2) Intern.

(a) **Definition** - an individual studying at a chiropractic college maintaining a standard of training that is acceptable by the Alabama State Board of Chiropractic Examiners and in the final academic year.

(b) **Qualifications** - have a current completed license application on file with the Board at the Executive Director's office including fee and documentation required by all student applicants for licensure. Students enrolled at approved chiropractic colleges may perform chiropractic procedures at a location other than the premises of the chiropractic college at which the student is enrolled provided such students have successfully completed a minimum of three academic years of chiropractic college and have met all of the chiropractic college's requirements concerning its student/preceptor program. The chiropractic procedures performed by the student shall be performed under the supervision and direction of a Chiropractic Preceptor.

(c) **Program Time Period** - Inclusion in this program as an intern is terminated at graduation.

Intern status may convert to Extern Status for the six (6) months following graduation from chiropractic college in the event the National Board requirements for Part IV are not satisfied by the graduation date.

Each applicant for the intern program shall complete an application to be provided by the Board. Such application shall include a provision that in executing the application the applicant agrees to comply with the provision of the Alabama Chiropractic Act and all rules adopted by the Board.

(3) **No extern or intern may deliver chiropractic services without on-premises supervision by the sponsoring preceptor doctor.**

(a) **Scope of practice:** The extern or intern may deliver chiropractic services as specified by the Code of Alabama, 1975 and the Alabama State Board of Chiropractic rules and regulations.
